

# CNC Machine Tool

Winona Campus

## OVERVIEW

In the MSC Southeast CNC Machine Tool program, you'll learn the precision skills of CNC operations on state-of-the-art equipment. We offer the training and education you'll need for a rewarding career in the field of precision manufacturing.

Our program has a strong emphasis on CNC operation, programming, and 3D modeling. You will learn to produce a CAD 3D model, program a CNC machine with your model, and machine the part on a cutting edge CNC machine. Our new advanced manufacturing lab is equipped with 10 CNC machines, including two 2019 Hurco vertical mills, two 2019 Doosan lathes, and one 2020 Haas toolroom mill.

The curriculum at MSC Southeast is based on the philosophy that hands-on is the best way to learn CNC operations and programming.
